

Section 301
CONTINUED PAYMENT
UNDER A VOCATIONAL
REHABILITATION (VR)
PROGRAM OR
SIMILAR PROGRAM

If Social Security finds that your medical condition has improved, your benefit payments usually stop. However, if you are participating in an appropriate program of Vocational Rehabilitation or other employment service, or other support service with an employment plan in place, your benefit may continue until your participation in the program ends.

Appropriate programs must be approved by Social Security and include:

- Ticket to Work
- VR agency using an individualized plan for employment
- PASS
- An Individualized Education Program (IEP) for a student age 18 - 21

It's advantageous to be participating in an employment program with an employment plan – particularly if your medical condition is improving.
